

DYKB DC 12v to 170V 150v-220V High Voltage Boost DC Power Module for Nixie Tube Glow Magic Eye  
MAX1771 US \$4.73 US \$5.26 -10%

This compact module utilizes a high-frequency step-up transformer to convert a 12V DC input from batteries or power supplies into a 220V AC output. Consequently, it serves as an ideal solution for ...

Without connecting wires, you need to solder the input and output wires by yourself. This product can convert the DC power of the 8V-13V battery into 220V AC power for household use, and ...

The 150W DC 12V to AC 110V 220V Inverter Boost Module Board Transformer Power Car Converter is a versatile electronic device designed to efficiently convert direct current (DC) power from a 12V ...

Efficient 40W DC-AC inverter transforms 12V input to 220V output with a step-up transformer boost module. Compact and versatile, suitable for various applications requiring different voltage levels.

Buy 500W Inverter Module Dc 12V To Ac 220V Car Converter Boost Board at Walmart

The 12V to 220V Step Up Power Module is a compact and efficient DC-AC boost inverter module designed to convert a 12V DC input into a 220V AC output. With a power output of 35W, this module ...

We are professional Business & Industrial DIY Module part store. Follow and save our store, We will provide the best service and high quality-low price items for you. Save more from ...

This product is the latest 2nd generation booster module, step-up transformer. Input 12V DC, 220V AC at the other end can be obtained. Frequency of high-frequency, higher output power, can drive 40W ...

Input 12V DC, the other end can get 220V AC, and 220V DC voltage. The frequency is high frequency and the output power is larger, which can drive 40W energy-saving lamps.
