

In this work we describe the development of cost and performance projections for utility-scale lithium-ion battery systems, with a focus on 4-hour duration systems. The projections are developed from an ...

Private energy developer Mass Group Holding plans to invest 1 billion euros (\$1.18 billion) in battery storage capacity across central Romania, the government said in a statement on Thursday ...

Summary: Explore how 1GW lithium battery energy storage systems are revolutionizing renewable energy integration, grid stability, and industrial applications worldwide. Discover key trends, real ...

Global investment of approximately US\$1.2 trillion in battery energy storage systems (BESS) is required by 2034 to support over 5,900 gigawatts (GW) of new wind and solar capacity, ...

US battery storage hits record 5.6 GW in Q2 2025, led by utility-scale growth, but sourcing rules may slow future gains.

Portland General Electric's (PGE) recent regulatory approval to increase the pricing of its 1 gigawatt (GW) battery energy storage system (BESS) portfolio underscores the growing complexity ...

The state of New York announced its first bulk energy storage solicitation on Monday, issuing a request for proposals to procure a total of 1 GW from storage developers as part of a state...

After record growth in 2024, U.S. battery energy storage systems (BESS) could grow from more than 26 gigawatts (GW) of capacity--enough to power 20 million homes--to anywhere from ...

We expect U.S. battery storage capacity to nearly double in 2024 as developers report plans to add 14.3 GW of battery storage to the existing 15.5 GW this year. In 2023, 6.4 GW of new ...

PORTSMOUTH, N.H., Dec. 5, 2024 /PRNewswire/ -- Granite Source Power, LLC (GSP) announces the sale of nearly 1,250 MW of standalone battery energy storage projects across ERCOT, SPP and ...
