

We adhere to the concept of "innovation, quality and service", and pays attention to product quality and user experience. We adopt advanced production technology and quality control system to ensure the ...

Durable and Certified: The container is certified to meet international safety standards, including CE, UN38.3, EN50549, G99, and VDE4105, ensuring a safe and reliable operation.

Our 500kWh BESS Hybrid Container provides a powerful energy solution suitable for various applications. Designed by leading OEM manufacturers, this container leverages advanced ...

Our Solar Energy System Energy Storage Container is the perfect solution ...

Containerized Bess 500kwh 1MW 20FT 40FT Container Solar Storage System This scheme is applicable to the distribution system composed of photovoltaic, energy storage, power load and ...

It has the functions of large capacity V/f source, parallel operation mode, on-line switching, short circuit support, high protection level, cabinet design and so on, so as to ensure efficient, safe and stable ...

Our Solar Energy System Energy Storage Container is the perfect solution for industrial and commercial energy storage requirements. With its high capacity, versatile design, and unmatched safety ...

This advanced container for battery storage integrates cutting-edge battery and inverter technology, delivering exceptional charging and discharging efficiency exceeding 90%.

The Bluesun 40-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection ...

It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy expansion and ...

Our products are qualified with CE, ROHS, ISO, SGS certification.
