

The Sunway 50kW/100kWh Outdoor Energy Storage System integrates high-performance lithium iron phosphate batteries, modular PCS, intelligent energy management, and a robust power distribution ...

Our 20-foot Air-cooled cabinet C&I solar power storage systems feature a revolutionary Battery Modular design and distributed cooling system. This means better temperature control, ensuring your ...

The ELECOD Outdoor Cabinet Energy Storage System (Air-Cooled) is a highly efficient and scalable energy storage solution, designed for use in microgrid scenarios such as commercial, industrial, and ...

The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers. Tailored to fit your specific needs, available in different ...

Our outdoor battery cabinets are designed to withstand harsh weather conditions and provide reliable power storage for off-grid and remote locations. With advanced thermal management and safety ...

LiFePO4 100kw 215kwh air-cooled energy storage cabinet offers high-capacity, safe, and efficient lithium battery storage with advanced thermal management for commercial and industrial applications.

The system offers flexible configuration, compatibility with most EV brands, and is suitable for various industrial and commercial applications such as microgrids and solar storage.

The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.

Unlock energy independence and maximize ROI with the Cooli Smart 100kW/215kWh Air-Cooled Energy Storage Cabinet. Engineered for commercial and industrial resilience, this high-density ...

Efficient Energy Storage: The air-cooled energy storage cabinet is designed to provide reliable and efficient energy storage for solar and microgrid systems. It features modular battery packs and an ...
