

50KW+115kwh Small Industrial and commercial distribution energy storage cabinet Main Parameter ~ Energy storage parameters Rated energy 115.2kWh

Delivering 50kW cooling and 53kW heating, the 50kW Heavy Industrial Package Unit is built for Oil & Gas and mining applications. Its 2400 L/s flow rate ensures stable conditions across wide areas, ...

NB+50KW/104KWH Microgrid Wind, Diesel, Charging and Storage Cabinet One cabinet for grid, generator, photovoltaic, diesel, and charging piles Four-dimensional thermal runaway monitoring and ...

Built for Australia's harshest conditions and engineered in-house at our Clean Energy Hub, this unit provides plug-and-play power for mining, construction, events and remote locations.

The Air-cooled C&I (Commercial and Industrial) Battery Energy Storage System (BESS) Cabinet is a versatile energy storage solution designed for a wide range of users across various industries.

High-density drawer storage cabinets for storing large quantities of items whilst maintaining the smallest footprint possible. Ideal for workshops and warehouses.

Built for Australia's harshest conditions and engineered in-house at our Clean ...

The 50kW Smart Energy Storage Air-Cooled Integrated Cabinet, designed for commercial and industrial applications, features air-cooled thermal management, an intelligent BMS & monitoring system for ...

Designed to support grid-tied and off-grid scenarios, the Hybrid ESS cabinet offers seamless integration and maximized space utilization, making it an ideal choice for growing energy demands.

Equipped with advanced LFP battery technology, this 50kw lithium ion solar battery storage cabinet offers reliable power for various applications, including commercial and industrial energy storage, ...

The Heavy Duty Industrial Storage Cabinets are perfect for warehouses, workshops, and manufacturing facilities, helping you maintain an organised and efficient workspace.
