

e-STORAGE and Sunraycer have announced a collaboration to supply and maintain battery energy storage projects in Franklin County, Texas, US.

The agreement secures American-made LFP battery supply for Qcells' utility-scale projects from 2028 to 2030, reinforcing a shared commitment to domestic manufacturing.

Explore the top 25 BESS projects in the US and uncover the key players driving America's energy storage boom.

Browse past, present, and future energy storage projects from UC San Diego's Energy Storage Group. Filter by research area and see real-world impact in action.

The energy storage systems included in this commitment are built using the latest LG Energy Solution containerized lithium-ion battery solutions with LFP cells manufactured at U.S. facilities.

Interactive map of battery storage projects in the US. View the largest projects, track new developments, and explore capacity data across all states.

Together, solar and battery storage account for 81% of the expected total capacity additions, with solar making up over 50% of the increase. Solar. In 2024, generators added a record ...

Under the agreements, e-STORAGE will deliver its SolBank 3.0 battery energy storage system and provide 10 years of long-term services, supporting system reliability, performance ...

According to BloombergNEF, global battery storage capacity doubled in 2023, and most of that growth came from lithium-ion technology. Companies like Tesla, LG Energy Solution, and ...

Discover the largest battery storage projects in the U.S. for 2025, including Darden, Bellefield, and Swiftsure.
