

Supermicro compact edge servers deliver powerful compute, flexible GPU options, and versatile indoor and outdoor deployment for demanding edge and AI workloads.

EDGE 5 Micro Data Centre is an air conditioned server rack that facilitates edge computing. In this digital age with more devices connecting to the internet, sending and receiving data, there is now a ...

New EDGE Computing Data Center Rack: Fully air-conditioned, self-sufficient, certified early fire detection, optionally also available with fire extinguishing. Lehmann has designed a suitable server ...

The Edge Rack from SCH&#196;FER IT-Systems is the right choice for setting up your Edge network. Our experts will be happy to advise you!

This powerful IP66 Edge AI GPU Computing platform is implemented in machine learning, industrial automation, autonomous vehicles, sustainable energy engineering and many other solutions that ...

The dust and waterproof IP66 rated enclosure provides protection against the toughest environments. The fanless cooling design and SSD storage means there are zero moving parts, resulting in ...

The dust and waterproof IP66 rated enclosure provides protection ...

A standard, open frame server rack would survive literally no time at all. It is the level of sealing and build quality that is represented in an IP66 rating that transforms a standard cabinet into ...

ArcTiv Micro Data Center Racks Provide All-In-One Rack, Power, Cooling and Monitoring Solutions for your Edge-Computing IT Networks.

All-in-one, self-contained, prefabricated micro data centers for edge computing. With up to 8kW of integrated cooling, EdgeRacks are ready to be deployed wherever you need them.

We can help you choose server racks tailored to your specific needs and the environment in which your edge data center is located. We'd welcome the opportunity to meet with you to discuss ...
