

The most recent battery cells are using the LiFePO₄ technology which offers long lifespan, many charging cycles, and are safe for use and nature.

LiFePO₄ is a very safe technology, with no spontaneous combustion, fire and explosion. The self discharge rate is very low. There is no memory effect - the cells can be recharged at any state of ...

Explore the advanced technical specifications of the ELERIX EX-L280, a leading Lithium Iron Phosphate (LiFePO₄) cell engineered for superior energy storage performance and longevity.

ELERIX 1.2 kWh LiFePO₄ set (12 V) with 100 Ah cells + accessories. Highly energy-efficient Lithium cells, original Elerix Battery product with LiFePO₄ technology.

Selection of the top high capacity and high performance lithium LiFePO₄ cells and packs for industry and mobility. Simple but robust battery management products made directly by Elerix. No ...

ELERIX Lithium Battery LiFePO₄ (12V / 30Ah) - 1C Industrial lithium battery pack with high energy density, made on the safe LiFePO₄ technology, with capacity of xy Ah at 12,8V nominal voltage.

Industrial Lithium cell with high energy density and a capacity of 100 Ah (320 Wh), is made using LiFePO₄ (LFP) technology. The battery is made of high-quality materials and contains no toxic ...
