

Is Montenegro launching its first battery energy storage tender?

Montenegro's Elektroprivreda Crne Gore (EPCG) has upped the ante for its first battery energy storage tender. In a pioneering move for state-owned utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the end of 2024.

How much is EPCG investing in battery energy storage systems?

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55.9 million). EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand.

Will Kapino Polje install a 5 MW battery energy storage system?

The utility has also decided to install a 5 MWh battery energy storage system alongside its proposed Kapino Polje solar power plant, which would have 5 MW of installed capacity.

Will EPCG deliver 185 MWh of battery energy storage capacity?

In September, EPCG said it was looking to deliver 185 MWh of battery energy storage capacity across four locations. Its stated goal was to use the existing infrastructure for connection to the grid.

EPCG's pioneering move to install battery energy storage systems is a significant step in the modernization and stabilization of Montenegro's energy infrastructure. The project will improve ...

The workshop is organized within the framework of the StoreMore project, in which the Montenegro Science and Technology Park participates alongside 11 other partners from 10 countries ...

EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. Each ...

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

The new systems are intended to strengthen the resilience of Montenegro's power grid, providing additional flexibility to manage fluctuations in electricity production and consumption. By ...

Montenegro's Elektroprivreda Crne Gore (EPCG) has upped the ante for its first battery energy storage tender.

6Wresearch actively monitors the Montenegro Solar Energy and Battery Storage Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and ...

Introduction to Montenegro's Energy Transformation Imagine a small nation nestled in the Balkans, striving to balance its growing energy demands with a commitment to sustainability, all ...

Summary: Explore how advanced energy storage systems are transforming Podgorica's renewable energy landscape. Discover practical solutions for solar/wind integration, cost-saving strategies, and ...

In a pioneering move for state-owned utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the ...
