Sep 15, 2025 &#183; Digicel Fiji has launched its 5G network in Suva, Nadi and Lautoka, placing customers with compatible devices at the forefront of Fiji's digital evolution.

Fiji's digital journey is set to accelerate as the government launches a phased rollout of 5G technology, starting this year in the nation's busiest cities before extending to rural and maritime ...

Digicel Fiji will be deploying 5G network capability through a process known as spectrum refarming. This utilises the existing network spectrum, reducing the potential for interference

Fiji has officially stepped into the 5G era. On 11 September 2025, the government announced it had issued spectrum licences to Vodafone Fiji, Digicel Fiji, and Telecom Fiji.

The announcement comes as part of the government's commitment to enhancing Fiji's digital infrastructure, with 5G poised to deliver transformative advancements in telecommunications.

As I will share in a moment, Fiji's 5G rollout plan ensures that all connected areas will offer at least 4G services, so that no community is excluded from the digital economy.

Ministerial Statement National Strategy for 5G This globally aligned, evidence-based spectrum strategy ensures that Fiji remains part of the international 5G ecosystem, with ...

These locations represent Fiji's main economic corridors, ports, and medical centres, ensuring that from the outset, our commercial hubs, tourism centres, and emergency services gain access to 5G ...
