

In this white paper, CFD has been utilized to look at the influences of walls near generator enclosures as well as the influence of prevailing winds.

Our enclosures can be tailored to accommodate generators of various sizes, ranging from portable generators to large-scale industrial generators. Our expert team will work closely with you to ensure ...

AdaptAIR is the solution for adding a full-size roof vent to your shipping container. Designed for conex containers and container houses, our whirlybird turbine roof vent boosts airflow, ...

No matter what your power demands and challenges are, our Containerized Series generator sets will meet your needs and expectations through a selection of pre-configured models and options.

The ventilation and noise reduction system of container power station (diesel generator set) usually consists of air inlet shutter, air inlet noise reduction box, air exhaust shutter and air ...

ELCOS offers the possibility of installing power generators inside CONTAINERS Iso Range 20/20HC" - 30/30HC" - 40/40 HC" according to the customer's requirements. All the CONTAINERS can be ...

United Eneritech offers a range of louvers and dampers ideal for use with generator enclosures including wind-driven rain and hurricane louvers. Our team is focused on meeting our customers' needs for ...

When discharging air vertically, because the generator is surrounded on all sides, can result in higher than ambient air temperatures being pushed into inlet vents.

Ventilation is typically done through the use of an air inlet, air outlet/exhaust fan, and/or other ventilation openings. When ever possible, face the generator air inlet openings away from the wind. The wind ...

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, options and ...
