

Our proven HELIOS Solarator(TM) products are mobile, containerized renewable energy stations trusted by major corporations and government bodies on remote, regional, and urban sites.

Our business covers industrial manufacturing and energy storage solutions and provides comprehensive services from system design to installation and commissioning of containerized solar power systems.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase ...

China's leading BESS company, dedicated to developing the best battery energy storage system and improve the efficiency of renewable energy storage.

We are a professional manufacturer of integrated solar container systems. SolaraBox solar containers enable customers to achieve greater energy independence and reduce carbon emissions.

Our utility-scale energy storage solution from 1 MWh and up covers the entire lifecycle, including demand analysis, system design, system integration, installation, commissioning, acceptance, and ...

Thousands of happy customers have chosen Boxhub as their container supplier of choice. Convert shipping containers into mobile power stations equipped with generators or solar panels. These can ...

Explore innovative shipping container energy storage systems for sustainable, off-grid power solutions. Harness renewable energy storage effectively.

Microgreen solutions provide reliable power and energy storage for off-grid regular loads, grid-support cases and emergency back-up, with switchable energy input from renewable energy, a grid ...

Photovoltaic containers generate electricity using solar energy without fuel consumption, reducing dependence on traditional energy sources and lowering environmental pollution.
