

Discover the Outdoor GCI 25-50 energy storage system with 25kW inverter and 50kWh lithium battery. Ideal for commercial and industrial applications, this all-in-one outdoor hybrid solution offers peak ...

Weatherproof 9U 600x600 outdoor data cabinet designed for network equipment protection. IP55-rated enclosure with ventilation, perfect for telecom and IT infrastructure in harsh environments.

Specifically for medium-to-large commercial facilities, factories, farming operations, telecom hubs, and institutions across Kenya. Combining solar PV, battery storage, national grid, and generator back-up, ...

Photovoltaic energy storage cabinet with air cooling optimized for safe, off-grid outdoor use.

Each outdoor photovoltaic telecom energy cabinet is built for harsh outdoor telecom and edge usage, characterized by durability, flexibility, and intelligent control to provide unshakeable power supply.

Power generation is achieved with 32 &#215; 550W solar panels, offering a combined 17.6kW of renewable energy. This high solar input ensures sufficient daytime power supply for multiple loads, including ...

3 phase supports 100% three-phase unbalanced AC output, support 200% capacity ratio. Adopted high grade LFP battery cells with cell level BMS, provide all-round protection to the battery. Remote ...

Engineered with reinforced steel enclosure and IP55/IP65 protection class for dust, water, and corrosion resistance in severe climates. Combines high-voltage lithium battery packs, BMS, fire protection, ...

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...

It's a complete plug-and-play containerised setup: 25 kW PCS (power conversion system) hybrid inverter + 50 kWh LiFePO4 battery bank (usually 51.2 V &#215; 1000 Ah rack) all pre-wired in a neat ...
