

Built with 72 half-cut N-Type monocrystalline cells and dual-glass bifacial technology, it captures sunlight from both the front and rear sides, increasing overall energy yield.

Be it hotel and restaurant spaces where privacy is a specification, acoustic laminated glass by Impala Glass in Kenya is regarded not just for its acoustic appeal but also for the safety which the interlayer ...

Get the 590W Heavy-Duty Solar Module with Dual-Side Generation online at Jumia Kenya and other Phoenix Solar Panels on Jumia at the best price in Kenya Enjoy Free DELIVERY & Cash on Delivery ...

We provide custom double and triple glazed design solutions for any residential building or commercial project creating the ideal barrier between hot and cold temperatures.

Compared to traditional single glass modules, double glass modules offer significant advantages, particularly in terms of efficiency and durability. The rear glass layer can absorb reflected light, ...

These cutting-edge panels feature N-Type cell technology, multi-busbar design, and IP68-rated double glass construction, ensuring superior performance in Kenya's sunny climate with minimal ...

Assembled with 11BB bifacial PERCIUM and half-cell configuration, these double glass modules have the capability of converting the incident light from the rear side together with the front side into ...

As an energy efficient glass in Kenya, double glazing reduces heat loss in cooler regions and limits heat gain in warmer areas. It also functions as effective soundproof glass for buildings in ...

With multi-busbar (MBB) and half-cell technology, the panel minimizes energy losses, resists micro-cracks, and enhances output under partial shading or low-light conditions. The robust dual-glass ...

We are glass processors in Kenya, providing energy-efficient glass, annealed, tinted, tempered, laminated and reflective glass with hardware at a reasonable price.
