

Follow appropriate Albeo LED Luminaire Installation Instructions to install the fixture. Take standard precautions against static discharge during fixture installation.

At this point, power should be connected to both the AC ballast and the emergency ballast, and the Charging Indicator Light should illuminate indicating the battery is charging.

Let's face it - energy storage battery cabinets aren't exactly the Beyoncé of renewable energy systems. But just like backup dancers, they're critical to the show.

Although no routine maintenance is required to keep the emergency battery backup functional, it should be checked periodically to ensure that it is working. The following schedule is recom-mended:

GENCY BATTERY BACKUP INTO LUMINAIRES WITH NON-FERROUS METAL OR POLYMERIC ENCLOSURES

For safety, read and understand instructions completely before starting installation. Electricity should be turned off at the fuse or the circuit breaker box before installing the fixture.

Whether you're looking to keep the lights on during an outage, power your essential appliances, or even go off-grid, installing a battery backup system is a smart choice. But how do you ...

Easy step-by-step guide to install a 2x4 LED flat panel light with emergency battery backup for safe, efficient lighting at home or work.

Note: These instructions do not cover all details or variations in equipment nor do they provide for every possible situation during installation, operation or maintenance.

This Emergency Battery Backup must be installed into an UL/CUL Listed Luminaire with a steel enclosure. Do not install this Emergency Battery Backup into luminaires with non-ferrous metal ...
