

Jinko ESS has announced the delivery of 15 SunGiga C&I liquid-cooled energy storage systems to its Mexican service partner, ECOPULSE.

Sungrow and Quartux supplied and commissioned its cutting-edge liquid cooled ESS, the PowerTitan with Quartux Control&EMS to a 25MWh project in Cancun, Mexico.

The PowerStack utilizes advanced technologies such as liquid cooling to decrease the levelized cost of energy storage (LCOS) when compared to traditional air cooling.

Scheduled for commissioning in July 2025 for a project located in the state of Quer&taro, the systems are projected to deliver annual energy savings of over \$100,000 through advanced peak ...

By implementing this liquid cooling, the PowerStack is able to maintain a lower battery temperature difference, which results in longer battery life and improved charging and discharging ...

By integrating storage systems, energy management, and inverter technologies, LIVOLTEK is building a comprehensive end-to-end energy ecosystem in Mexico.

Sungrow's energy storage systems are liquid-cooled and offered in 5 MWh PowerTitan 2.0 blocks for utility-scale installations and 500 kWh PowerStack blocks for commercial and industrial ...

Engineered for Mexico's highland conditions featuring 25°C daily temperature fluctuations, the SunGiga systems maintain cell temperature differentials within ±2.5°C via advanced liquid...

With its local factory in Quer&taro and expanding in-country capabilities, Livoltek is perfectly positioned to accelerate the deployment of smarter, more efficient, and locally-adapted ...
