

On June 12th 2025, at the highly anticipated SNEC 18th (2025) International Photovoltaic Power Generation and Smart Energy Conference & Exhibition, LONGi announced two groundbreaking...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high-quality, reliable ...

Founded in 2000, LONGi Green Energy Technology Co., Ltd. (LONGi) is a solar technology that develops solutions for large-scale power plants and for different industries and ...

Li Zhenguo, President of LONGi, proposed the "Solar for Solar" concept of PV power generation for PV products at the 24th U.N. Climate Change Conference, which attracted global attention.

LONGi supplies its reliable, high-performance solar modules to 6 continents and 85 countries and regions to power the world toward a low carbon future. HIBC (Hybrid Interdigitated Back-Contact) ...

LONGi: Since entering the photovoltaic (PV) industry in 2006, LONGi has firmly believed that solar energy is a powerful tool for humanity to combat climate change. Technological innovation ...

Longi's product offerings include advanced solar panels like the Hi-MO series and bifacial modules that maximize energy generation. The company's sustainability initiatives aim for substantial carbon ...

Actively practicing its "Solar for Solar" concept, LONGi is accelerating the global transition to sustainable energy and promoting energy equity, enabling more people around the world ...

The achievement has firmly established LONGi as a leader in crystalline silicon photovoltaics - the company is now the twin world-record holder both for efficiency in crystalline ...
