

Where can I find solar charging workstations?

Solar charging workstations can be found at college and corporate campuses, outdoor classrooms and offices, parks & trails, business parks, golf courses, and stadiums throughout the United States.

What is a Sunbolt solar workstation?

Sunbolt Solar Workstations are engineered with the highest solar power output, providing superior off-grid autonomy and charging performance. They are equipped with multiple charging outlets and high-capacity battery banks, making them ideal outdoor site amenities for charging cell phones, tablets, laptops, and other mobile devices.

What is an off-grid solar kit?

An off-grid solar kit is a system that provides power from solar energy for use in locations not connected to the main power grid. Sunbolt's solar kits each have a solar powered umbrella overhead that provides power to charge your devices. They are suitable for various locations such as backyard patios and sheds, RVs and cabins. Sunbolt offers 5 Solar Kits to choose from, varying by power.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

A standalone, modular and highly portable Solar Charging Station to provide sustainable silent off grid power for Glamping, Disaster Relief, Camps, NGOs.
