

This project is one of the key agricultural photovoltaic power generation projects in Wanning City, making full use of the local barren slopes and abundant solar energy resources, transforming natural ...

The Oregon Energy Facility Siting Council (EFSC) granted the approval on Friday (6 th December) and authorised the developer, Pine Gate Renewables, to proceed with construction.

Pine Gate's collapse has sparked questions over whether it is a harbinger of further bankruptcies across the renewables sector.

Developers added 12 gigawatts (GW) of new utility-scale solar electric generating capacity in the United States during the first half of 2025, and they plan to add another 21 GW in the ...

In a stark indicator of the mounting challenges facing the renewable energy sector, Pine Gate Renewables, a prominent national solar developer operating in 32 states, has filed for Chapter ...

Set to be the largest of its kind in the U.S., the project will use nearly 4 million solar panels to generate 1,200 megawatts of power--enough to provide clean, emission-free electricity to around...

Oregon is making significant strides in renewable energy with the recent approval of the Sunstone Solar Project. This groundbreaking initiative, spearheaded by Pine Gate Renewables, is ...

Founded in 2016, Pine Gate is dedicated to the innovative deployment of clean energy and has extensive experience in the development, financing, construction, and operation of solar and energy ...

Owned by Pine Gate Renewables, it will combine a 1,200 MW solar photovoltaic system with a 1,200 MW/7,200 MWh battery storage component. This mega project will contribute ...
