

New all-vanadium flow battery pump in Manchester UK

Vanadium flow battery (VFB) specialist Invinity Energy Systems will build an energy storage system in south east England that could reach 20.7MWh. Known as the LODES (Longer ...

Invinity has acquired the rights to develop, build, own and operate the system using the Company's VS3 vanadium flow batteries on a site in the South East of England.

Invinity operates manufacturing and assembly facilities in the UK, supporting the delivery of utility-grade vanadium flow battery systems for domestic and international projects.

All four projects will make use of vanadium flow battery systems, a technology which, at present, is relatively uncommon in the UK BESS sector.

Discover 10 emerging new flow battery companies to watch in 2026 & find out how their solutions will impact your business!

The project will be the largest vanadium battery system ever deployed by the company and one of the UK's first commercial sites to pair long-duration storage directly with on-site solar ...
