

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park it operates in North Macedonia.

Summary: North Macedonia is emerging as a strategic hub for home energy storage production, driven by rising renewable energy adoption and government incentives. This article explores the country's competitive ...

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski. In addition, ...

Key Insight: The average price range for industrial-scale lithium-ion battery systems in North Macedonia is currently between \$280/kWh to \$380/kWh, depending on capacity and technology.

Take, for example, a textile factory in North Macedonia that partnered with a local Skopje-based manufacturer. By integrating modular lithium-ion storage systems, they reduced peak demand charges by ...

A new energy law adopted in May 2025 is expected to further accelerate the uptake of battery storage. State-led solar and wind projects, along with investments in grid infrastructure and ...

But here's the kicker: this Balkan nation is quietly becoming a hotspot for energy storage solutions. With increasing renewable energy adoption (think solar farms popping up like mushrooms after rain), the demand ...

Under the investment of Mey Energy, YESS Power -- in collaboration with China-based Cubenergy -- is building a 60 MWh energy storage system in North Macedonia. At YESS Power, we are proud to announce ...

North Macedonia has issued its first two licenses for battery energy storage system (BESS) projects, with a combined capacity of 2.6 MW. These licenses were issued by the Energy ...

North Macedonia emergency energy storage power supply manufacturer The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104 ...
