

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

Solar Priority Supply: The MEOX system prioritizes solar energy to power loads, with excess energy charging the storage via a DC-coupled architecture (efficiency  $\geq 98.5\%$ ). Once fully charged, the ...

Our containers are designed to provide a turnkey solution for off-grid living or working, with all the features and amenities you need to live comfortably and sustainably.

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go ...

Designed for high-performance, temperature-controlled cold storage, Solarators® operate as efficiently as industrial freezers and chillers--without the fuel costs, emissions, or grid dependency.

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

With low start-up current, minimized cycling, and extended compressor lifespan, these units provide reliable cooling with optimal energy efficiency, making them ideal for both off-grid and grid-connected ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

An Off-Grid Solar Container delivered to the property before construction began. The container provided clean, consistent power throughout the entire build process--running saws, drills, welders, and site ...

This off grid refrigerated shipping container is located in northern Ohio. It provides lighting inside the container and powers a DC Air Conditioner.
