

Which portable power station can run a TV?

Nearly all portable power stations can run a TV. So, we had to look at more when deciding which portable power station to recommend. Our tests included: While we recommend the Bluetti EB55 as the best overall portable power station to power a TV, you might have differing needs, making another model more appropriate. What is the best portable power station?

If you want the best all-round portable power station, the EcoFlow River 2 Max is our pick, as it has smart features, a long-lasting battery, and fast charging. Another EcoFlow option we recommend is the River 3, a minimalist model that delivers essential power in a lighter package. Need serious muscle for heavy-duty equipment or home power backup?

What can a smart portable station do for You?

Keep your appliances safe during sudden power outages with a smart portable station. With options up to 3600Wh, they're a great alternative to generators. From appliances and TVs to lights and your laptop, you can continue using everything even when there are power cuts in your neighbourhood.

Are heavy-duty power stations 'portable'?

It's also worth knowing that there are models that pack in far larger batteries and more power for a higher price and more weight - those heavy-duty stations can weigh more like 45kg and have wheels for moving them around, so they don't feel quite as "portable" to us!
