

SOLAR EXPANSION VESSELS SOLAR HOT WATER CYLINDERS SOLAR PUMP STATIONS
HYBRID SOLAR PV/T UNDERFLOOR HEATING KITS

This article reviews five top solar pump kits and related devices, highlighting lift, flow, battery compatibility, protection features, and ease of use. Each option is evaluated on performance, durability, and ...

Utilizing solar power and highly efficient motor / mixing drive systems, the SolarBee® pulls in water at the desired depth from all corners of the basin providing effective mixing to a predetermined depth.

The SolarBee® is a floating reservoir mixer/circulator that can achieve targeted, high-volume and long distance circulation completely on solar-power. SolarBees are manufactured by Ixom Watercare at our Dickinson, ...

The definitive guide to solar water pumps. We cover how they work, how to size the right panels and pump for your project, costs, and installation. Use our interactive calculator to design your system.

All IXOM Watercare potable tank mixing equipment are properly sized to your operation criteria including but not limited to tank volume (gallons), inflow rate (gallons / minute), and daily use rate (gallons / day). Collapsible ...

Utilizing solar power and highly efficient motor / mixing drive systems, the SolarBee pulls in water at the desired depth from all corners of the basin providing effective mixing to a predetermined depth.

It is designed to maintain the preset temperature of the mixed water delivered to the user outlet, when there are variations in the temperature and pressure of the hot and cold water at the inlet, or in the drawn-off flow rate.
