

Using a multimeter will eliminate any reading differences between different devices. Then check reasons for high voltage drop, too thin wire, poor contact, loose bolts / screws, loose crimps, ...

Are voltage jumps in your solar controller causing unexpected shutdowns or equipment damage? This article explores why photovoltaic controller boards experience sudden voltage spikes, how they ...

Solar charge controllers are essential for maintaining the health and efficiency of your solar power system. However, they can encounter issues from time to time. Here are some common ...

By understanding these common problems and their solutions, you can effectively diagnose and resolve any issues with your solar charge controller, ensuring the smooth operation of your photovoltaic system.

It charges the battery (usually gets around 90% charged), shuts off (the charge controller doesn't show any warning lights, it just shows that it isn't receiving any sun), then turns itself back on.

These fluctuations can occur due to various factors such as inadequate sunlight exposure, loose connections, or even dirty solar panels. Troubleshooting power output issues may ...

Welcome to our detailed guide on solar controller problems, aiming to equip you with insights into various issues, their root causes, and preliminary troubleshooting steps.

In this guide, we'll walk you through 7 simple fixes to help you troubleshoot and resolve common problems with your Solar Charge Controller. These solutions are easy to follow, even for ...

This could be because of a problem with the solar panel or because the controller's maximum voltage limit is set too low. If your controller turns off frequently, you should measure the solar panel's output ...

My battery keeps switching off randomly, I'm unsure if my charge controller is even working with the lithium charge any more, and I can't access ANY settings, via bluetooth, or via PC ...

Strange MPPT fluctuations SmartSolar Charge Controller DIY diy, ess, vrm, mppt_controllers, cerbo-gx 7370 3 September 2025 MPPT behavior when BMS disables charging ...
