

How much power does a Trina Solar 400W solar panel produce?

Advanced features: All Trina Solar 400W panels deliver their rated power under Standard Test Conditions (STC), which include 1,000 watts per square meter of irradiance, 25°C cell temperature, and 1.5 air mass. However, real-world performance varies based on environmental conditions.

What is a Trina Vertex S 400W solar panel?

The Vertex S 400W represents Trina's flagship residential solar panel, featuring cutting-edge 210mm wafer technology and 120-cell configuration. This premium model delivers 20.8-21.1% maximum efficiency with a compact footprint that maximizes roof space utilization. Key features include:

Are Trina Solar panels a good choice?

Trina Solar 400W panels offer competitive efficiency ratings ranging from 19.2% to 21.1%, placing them among the top performers in the market. The Vertex S series matches or exceeds most competitors, while TallMax models provide excellent efficiency at value pricing.

How long do Trina Solar panels last?

Trina Solar 400W panels are designed to operate effectively for 25+ years. The linear power warranty guarantees at least 89.4% of original power output after 25 years, but many panels continue producing electricity well beyond this timeframe with gradual degradation. Do Trina Solar 400W panels require special maintenance?
