

How many EV models has BYD launched in Tunisia?

BYD has launched three BEV models in Tunisia -- Tang EV, Dolphin and Atto 3, and two PHEV models -- King and Song Plus DM-i. BYD (HKG: 1211, OTCMKTS: BYDDY) has launched five models in Tunisia as it continues to expand its presence in international markets.

What is the difference between a BEV and a PHEV?

The three BEVs are the Tang EV, Dolphin and Atto 3, while the two PHEVs are the King and Song Plus DM-i. The Atto 3 and King are known as the Yuan Plus and Chaser 05 respectively in China.

Why did BYD move to Tunisia?

The Atto 3 and King are known as the Yuan Plus and Chaser 05 respectively in China. The move enriches BYD's brand image and product lineup in Tunisia, and is a key move for BYD to deepen its efforts there following Tunisian President Kais Saied's visit to its global headquarters in early June, the company said.

Who makes the most EVs in China?

BYD is the largest NEV maker in China, selling a record 341,658 NEVs in June, up 35.02 percent year-on-year and up 2.97 percent from May, according to figures it announced on July 1. This included 340,211 passenger NEVs and 1,447 commercial NEVs.
