

Who makes solar panels in the USA?

Here's more information about five of the biggest, best companies that make solar panels in the USA. The top five solar panel manufacturers in the U.S. are First Solar, Qcells, Canadian Solar, Illuminate USA, and T1 Energy. These companies produce high-performance solar panels for residential, commercial, and utility-scale installations.

Who makes the most solar panels in the US?

First Solar is the largest manufacturer of solar panels in the US with a production capacity of 10.6 GW as of June 2025. It has two manufacturing capacities in Ohio and Alabama. Check out the top solar panel manufacturers in the US, such as First Solar, Hanwha QCELLS, Canadian Solar, T1 Energy, and Illuminate USA.

Where are solar panels made?

Leading U.S. solar panel manufacturers include First Solar, Qcells, Silfab Solar, Jinko Solar, and Canadian Solar's U.S. operations. Their factories in states like Ohio, Georgia, Texas, Florida, and South Carolina produce high-efficiency solar panels made in the USA that qualify for federal incentives.

Should solar panels be made in the USA?

However, some U.S. solar panel manufacturers still rely on imported materials, which may face tariff-related cost increases. For installers, sourcing solar panels made in the USA still offers more stable pricing and eligibility for domestic-content tax incentives.
