

Whatever the application we can assist, offering containerised solutions using solar power with or without battery storage.

Operating out of Johannesburg, IBC Solar is a German-based company with a strong presence in South Africa. It offers a wide range of solar products, including PV modules, inverters, and batteries.

Designed for remote Africa, our portable units power mining camps, telecom towers, agricultural irrigation, and rural communities from Nigeria to Kenya, Ghana to Botswana.

Traditional diesel generators cough up smoke - literally and figuratively - while mobile solar power containers sit quietly converting sunlight into reliable electricity. These 20/40ft steel boxes packed ...

The West Africa Container Terminal (WACT) has signed a significant Solar Lease Agreement with Starsight Energy, to provide an expected 1.2-Gigawatt hours of solar electricity each year over ...

The 40-foot solar container is designed to be easily assembled and disassembled in 96 hours due to its PV roof structure and extendable arms. This allows us to electrify entire communities very quickly, ...

360 feet of solar panels can be rolled out in 2 hours. Maximum solar yield power generated annually with 400 kWh per day as average energy output. In the East direction, the solar yield power is up to 76 ...

When needed, the energy storage battery supplies the electricity to the charging pile. Through the light-storage-charging system, this clean energy of solar energy is transferred to the ...

This solar electricity enterprise solution is easy to deploy to any location. This is ideal for customers that want power for their offices, shops, clinics, utilities etc. SolarTurtle is available in both a standard roof ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.
