

# Which photovoltaic bracket company has strength

Why are photovoltaic brackets important?

As the "skeleton" of photovoltaic power plants and an important component of photovoltaic tracking systems, the performance of photovoltaic brackets directly affects the power generation efficiency and investment returns of photovoltaic power plants, and is one of the main equipment of all ground-based photovoltaic power plants.

Who is FTC solar?

FTC Solar is a rapidly growing global provider of solar tracking systems, technology, software, and engineering services, and is also one of the top 10 PV tracking system brands in the world. FTC Solar's innovative tracker design provides remarkable performance and reliability, with industry-leading installation speed advantages.

What is the market size for photovoltaic tracking systems in China?

Taking the bracket market in the Chinese market for photovoltaic tracking systems as an example, the market size will increase from about 21 billion yuan in 2023 to about 25.3 billion yuan in 2024, and the Chinese market size will continue to grow in 2025.

Who makes Arctech solar trackers?

Arctech is a world-leading provider of intelligent solar trackers, fixed-tilt structures, PV cleaning robots, and energy storage solutions, also one of the top 10 PV tracking system brands in the world. Backed by over 530 patents, Arctech's products have been deployed in utility-scale and commercial solar PV projects since 2009.
