

Why is it not allowed to install photovoltaic panels

Are solar panels illegal?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies.

Can a Homeowners Association restrict solar panels?

That usually means banning a homeowners association from restricting solar panels in a way that significantly affects the cost of solar or the solar panels' performance. Often, the laws let HOAs make reasonable requests for aesthetic or safety purposes. Solar access laws are generally set at the state, county, or city level.

Are HOAs allowed to install solar panels?

Currently, 25 states have specific laws limiting HOA restrictions on solar installations. California's Solar Rights Act is among the strongest, prohibiting HOAs from preventing solar installations unless they pose safety hazards. Florida, Arizona, and Texas also have robust protections for homeowners wanting to go solar.

Do I need permission to install a solar panel?

Generally, any solar panel installation under 1MW is permitted without any additional approval required. Similarly to domestic installations, for no permission to be requested, there are several regulations to be met for commercial solar panel installations.

The only time that you could not go ahead is an Article 4 or a planning restriction blocked you - which is unlikely on solar panels. This was extended in December 2023 under SI 2023/1279 to ...
