

Armenia's recent approval of the Yerevan battery energy storage power station isn't just local news - it's part of a \$36 billion global push for grid-scale storage.

Our specialists have more than 10 years of experience in the field and know all the subtleties of designing and installing solar systems. We have implemented more than 500 projects both in ...

We specialize in energy storage and power quality solutions, offering innovative systems and services to optimize energy use and improve power quality for efficient, reliable energy management.

Manufacture of monocrystalline, polycrystalline and monocrystalline PERC panels, photovoltaic solar systems.

Discover innovation in solar products. Explore our diverse range, designed to meet your needs and elevate your experiences. Our products redefine excellence.

LZY Energy provides efficient and reliable energy management solutions for I&C users through leading technology and careful design. We are committed to promoting energy transformation and ...

Homeowners from every region of Armenia have placed their trust in Solaron and confidently installed solar power stations, getting the remarkable benefits of renewable solar energy.

Yerevan's BESS manufacturers combine regional grid expertise with global technological standards, offering tailored solutions for critical power applications. Their growing international presence ...

As Yerevan positions itself as the Caucasus' renewable hub, Jinyuan's storage solutions could become Armenia's new copper - the 21st century's must-have commodity.
